Recent Graduate

May 2019
GPA: 3.4

University of Wisconsin - Eau Claire

Bachelor of Science Degree in
Computer Science

Enthusiastic, kind, and
conscientious

Technical Skills

Backend:

Java	Node.js
Spring Boot	Express
MySQL	MongoDB
Hibernate	Mongoose

Frontend:

Angular 8	Javascript
RxJS	HTML
Redux	Bootstrap

Agile * GIT * Linux * Apache *
Tomcat * AWS * Jenkins * JUnit *
Jasmine

Personal Project

iXplore

- A web application that manages and displays trips, locations and images on a map
- Built with Angular, Node.js, MongoDB, AWS S3, and Google APIs

Work Experience

May 2017 - Present

Menards Inc.

Point of Sale - Full Stack
Developer

FRONTEND

- Develop data-driven Angular applications that allow stores to operate everyday functions
- Construct a library of components and services to be shared across many departments
- Integrate APIs with heavy use of RxJS while using Redux to manage application state

BACKEND

- Document, implement, and test REST microservices using Java on a team of seven
- Analyze data using Splunk to gain better insight on store operations
- Configure and secure servers running Linux
- Refactoring old services to follow best practices
