Recent Graduate

Year: 2019
GPA: 3.4

University of Wisconsin - Eau Claire

Bachelor of Science Degree in
Computer Science

Capitalizing on every educational
and software development
opportunity

Technical Skills

Backend

Java	Node.js
MySQL	Express
Hibernate	MongoDB
	Mongoose

Frontend

Angular 8	Javascript
RxJS	HTML
Redux	Bootstrap

Agile * GIT * Linux * Apache

Work Experience

May 17' - Present

Menards Inc.

Point of Sale - Full Stack
Developer

FRONTEND

- Develop data-driven Angular applications to allow stores to operate
- Construct a library of components and services to be shared across many departments
- Integrate APIs with heavy use of RxJS while using Redux to manage application state

BACKEND

- Document, implement, and test REST microservices on a team of seven
- Analyze data using Splunk to gain better insight on how our services are being used
- Configure and secure store servers running Linux

Personal Project

iXplore

- A web application that manages and displays trips, locations and images on a map
- Built with Angular, Node.js, MongoDB, AWS S3, and Google APIs
