EXPERIENCE

——————

June 19' - Present — **Menards Inc.**

POS-Angular/Java Developer

- Designing and implementing Angular applications that will replace highly used legacy software

- Interfacing with several back-end services to display store critical information

- Configuring and securing Apache on a Linux Server

- Make daily use of Atlassian products, Jira, Confluence, Hipchat, Fisheye, Bitbucket, to manage projects and communicate efficiently

May '17 - June '19 — **Menards Inc.**

POS-Java programmer Intern

- Cooperated on the back-end team to modify, implement, and maintain REST/SOAP services

- Analyzed data using Splunk to gain better insight on how our services were being used

- Utilized frameworks Angular and Spring to develop the front and back-end of an in-house utility

- Created a utility that gave teams members the ability to create needed documents and search store details more efficiently and user-friendly

Project

—————

September '18 - April '19 — **Eau Claire**

Team Member

- Constructed a front and back-end program using JSTL and Spring that connected professors to students' needs as quickly and efficiently as possible

- Collaborated with a team of three to brainstorm, build, and merge features into the project
